

# SERVERCHOICE

## STEVENAGE DATA CENTRE

### OVERVIEW

Opened in 2008 to great acclaim, Stevenage Data Centre was ServerChoice's first facility and has been operating continuously with 100% uptime. It was a multi-million pound investment, using the very latest technologies to make it secure, high performing and resilient, with no single point of failure. Recent expansion of the data centre has been fuelled by high demand for this rock-solid facility.

### Key Features

- ✓ Low-risk location in Hertfordshire
- ✓ ISO 27001 & PCI DSS certified
- ✓ Minimum N+1 resilience
- ✓ Tier 2+
- ✓ Carrier neutral
- ✓ Easily accessible
