**SC** SERVERCHOICE

# OVERVIEW

Opened in 2008 to great acclaim, Stevenage Data Centre was ServerChoice's first facility and has been operating continuously with 100% uptime. It was a multi-million pound investment, using the very latest technologies to make it secure, high performing and resilient, with no single point of failure. Continued expansion of the data centre has been fuelled by high demand for this rock-solid facility.

# KEY FEATURES

- ✓ Minimum N+1 resilience
- ✓ ISO 27001 & PCI DSS certified
- ✓ Free relocation with FlexMove®
- ✓ Over a decade of 100% uptime

- ✓ Carrier neutral
- ✓ Low-risk location in Hertfordshire
- ✓ Easily accessible

# LOCATION
